

**Caitlynn Fletcher, COTA/L**  
caitlynnf@locusfct.com

Caitlynn graduated from Pitt Community College OTA program then became certified by the National Board for Certification in Occupational Therapy in addition to being licensed by the North Carolina Board of Occupational Therapy. Prior to making the decision to enter the OT profession, Caitlynn worked for over 7 years in home-health providing direct care to patients with intellectual disabilities. She understands the value of serving families in their home environments using their materials and routines. Caitlynn brings a positive energy everywhere she goes. Her love and passion for helping others is what began her journey in occupational therapy. She is very enthusiastic about working with children who need a little extra help. She works hard to find new, fun, and creative ways to help every child and their family reach their goals in occupational therapy.

Caitlynn is a great fit for your family due to:

- Pediatric academic coursework and fieldwork experiences
- Seven years of experience working with children and young adults in a home health setting.
- Effective communication to ensure families and therapists can work together collectively.
- Entering each session genuinely with patience and understanding.

Caitlynn is experienced and comfortable serving families whose children have the following diagnoses: **Autism, Sensory Processing Disorder, Developmental Delay/fine motor, various Genetic Conditions, Family Centered Care, Visual Deficits, and Cerebral Palsy.**

---

Caitlynn is supervised and mentored by Lauren Clark OTR/L, a supervising OT with Locus and member of the company's management team. Lauren mentors Caitlynn and other staff weekly, providing valuable experience and insights to make sure your experience with Locus is rewarding. Lauren herself is mentored by Beth Hathaway OTD OTR/L, a veteran OT with over 35 years of pediatric experience. As the only known private pediatric practice owner in North Carolina with a clinical doctorate degree in OT, Beth understands how to deliver evidence-based therapy. Her doctoral degree included research on how to equip and mentor providers of early intervention to provide family centered care, a topic which she is passionate about and remains a core value of therapists at Locus Family Centered Therapies. Beth has intentionally created a staff mentoring program at Locus which includes frequent contact to discuss caseloads, the ability to attend sessions alongside her staff, and contributing to their continued education through workshops and trainings.

*Thank You For the Opportunity to Work With Your Child and Your Family!*
