

Morgan Hudler, COTA/L
morganh@locusfct.com

Morgan was born and raised in the NC Appalachian Mountains. She moved to Greenville NC in 2016 to attend East Carolina University, where she received a Bachelor of Science degree in Recreational therapy in 2019. She then attended and graduated from Pitt Community College OTA program in 2022, becoming certified by the National Board for Certification in Occupational Therapy in addition to being licensed by the North Carolina Board of Occupational Therapy in 2023. Morgan has worked with the Autism Society of NC social reaction program for over 4 years gaining immeasurable experience and knowledge working with children ages 4-21 on the Autism Spectrum. Morgan's love for occupational therapy started in high school after volunteering with special Olympics and Adapted PE programs at her school. She is passionate about helping others and admires how occupational therapy focuses on client-centered treatment. She works hard to find new, fun and engaging activities to help every kiddo and their family reach their goals in occupational therapy.

She is particularly tuned into the needs of families as a result of:

- Educational and clinical background including OTA pediatric coursework and fieldwork
- Effective communication to ensure families and therapists can work together collectively
- Entering each session with patience and flexibility
- Experience working with children with various diagnoses

Morgan is experienced and comfortable serving families whose children have the following diagnoses: **Autism, Sensory Processing Disorder, Developmental Delay/Fine Motor Skills, Genetic Conditions, Feeding Dysfunctions, Family Centered Care, and Cerebral Palsy/Musculoskeletal**

Morgan is supervised and mentored by Elisabeth Rubin OTR/L, a supervising OT with Locus and member of the company's management team. Elisabeth mentors Morgan and other staff weekly, providing valuable experience and insights to make sure your experience with Locus is rewarding. Elisabeth herself is mentored by Beth Hathaway OTD OTR/L, a veteran OT with over 35 years of pediatric experience. Beth's doctoral degree included research on how to equip and mentor providers of early intervention to provide family centered care, a topic which she is passionate about and remains a core value of therapists at Locus Family Centered Therapies. Beth has intentionally created a staff mentoring program at Locus which includes frequent contact to discuss caseloads, the ability to attend sessions alongside her staff, and contributing to their continued education through workshops and trainings.

Thank You For the Opportunity to Work With Your Child and Your Family!
